CREDITS AND ACKNOWLEDGEMENTS

The Wisconsin Division of Forestry would like to thank the

MINNESOTA FOREST RESOURCES COUNCIL

and

MIKE PHILLIPS

of the Minnesota DNR for their pioneering work in the development of voluntary site level guidelines. Their willingness to share the fruits of three years of hard work was of enormous value to our efforts in Wisconsin. Having a solid core of quality information to build on, and the guidance of Mike Phillips to help start us off on the right path made it possible to do in months what would have otherwise taken years. Thanks a lot neighbor!

The Division of Forestry would also like to thank Dr. John Kotar for his continuing work to provide the tools needed to constantly improve the quality of the forest management in Wisconsin. His publication, *Approaches to Ecologically Based Forest Management on Private Lands* was used heavily in the silviculture and forest management planning chapters of the guide, and is just one example of his ability to bring together both ecology and silviculture for the benefit of both.

The development of these guidelines was funded in part by a

USDA FOREST SERVICE FOCUSED FUNDING GRANT.

Reproduction of this guidebook is encouraged.

Any modifications, however, must first be approved by the

WISCONSIN DEPARTMENT OF NATURAL RESOURCES - DIVISION OF FORESTRY.

Development Team for the Guidelines

DARRELL ZASTROW

Chief, Forestry Science Section, Team Sponsor

PAUL PINGREY

Private Forestry Specialist, Team Leader

JOE KOVACH

Ecologist/Silviculturalist

MIKE LIETZ

Forest Tax Law Field Manager

DALE GASSER

Forest Hydrologist
